Experience

January 2024 - May 2024

Gameplay Programmer Intern • Nerd Monkeys

- Implemented Game Design ideas into code/**gameplay** mechanics.
- **Debugged** and expanded on existing code.
- **Tested** and **improved** gameplay features.
- Brainstormed solutions to problems within a **team**.

February 2023 – Present

Founder/Developer/Designer • Bloqi

- Social platform bringing a Twitter-like experience to the TikTok generation in university.
- Managed the **development** process from design to beta testing, showcasing strong **teamwork** and **problem-solving** skills.
- **Designed** the **UI** using Figma. Developed first version of app in Flutter alone in less than a month.
- Curated the script for the video (edited in final cut pro by myself) at every stage of King's College London's **Idea Factory Incubator**, leading us to the final.
- Iterating rapidly on product and associated media enabled progression through multiple stages of competition and sustained interest of 1 of the judges and other potential investors.

November 2022 - January 2023

Unreal Engine 5 games • Udemy Course

- See portfolio for various games created using Unreal Engine 5, honing skills in **C++** and **gameplay** systems.
- Demonstrated expertise in **Object-Oriented Programming** and 3D mathematics.

September 2021 - March 2022

Digital Marketer • Abacus Wills and Trusts Global

- I was selected by the CEO out of 10 digital marketers to work as temporary digital **marketing manager**.
- Led successful marketing campaigns, exhibiting excellent **communication** and **collaboration** skills.
- Re-invigorated the company marketing — brainstorming marketing ideas, designing high quality marketing assets for social media posts, writing email newsletters.

April 2019 - March 2020

Delivery Driver • Deliveroo/Ubereats/Justeat

- By focusing on 5-10 venues I built efficient relationships which allowed me to make more deliveries per hour than any other driver in the area, demonstrating **adaptability** and **time management** skills.
